

CHANGE ORDER

NO. CO_450

Customer Name	iStar	Requested By/for	Joy Liu
Base Project Name	Acumatica ERP	Consultant Name(s)	Caroline Hern
CO Requested Start	9/7/2023	Client PO Number	Enter No.
Required by End Date	9/22/2023	Project Manager	Jim Carroll
Project Phase	Phase I	Date	Enter Date
CO Name	Auto Populate Fabrication/Value Add Field		
Reason	Stanley personnel Calculate Labor on a per weight of jewelry item basis. R&S personnel request that Unit Cost input will auto calculate the cost of the precious metal and cost of the Fab/Value that together = the Unit Cost		
Change Specification	Create Pop up Window at Style/Item creation Gold - Create 2 new fields on the Stock Item screen (IN202500) under the Handling Cost field. Labor by Weight unit cost (decimal field) Total labor by weight (decimal field) - The user will enter the unit labour cost field in the Labour by Weight field. Total labor by weight = (Labor by Weight unit cost * PM weight) - The Labor by Weight value needs to be included in the Unit Cost amount Silver When creating a silver item the user has the full unit price and the weight. The system needs to then calculate the difference and input this to the Fabrication/Value Add field.

 UPDATE METAL COST ...

* Inventory ID:	SSS 102222	Product Workgroup:	
Item Status:	Active	Product Manager:	
Item Metal Weight			
Silver, Grams:	8.888000	(A)	Commodity Type: Silver
Fine Silver, Grams:	8.888000		Increment: 0.032151
Surcharge, %:	0.00		Matrix Step: (B) 10.215116
Metal Loss, %:	0.00		Price / TOZ @ Basis: 20.000000

Item Costs	
Unit Cost: (C) 10.215116	Est. Landed Cost: 10.215116
Precious Metal Cost: 5.715116	Freight Cost: 0.000000
Fabrication/Value Add: 4.500000	Duty Cost: 0.000000
Other Materials Cost: 0.000000	Duty, %: 0.00%
Packaging Cost: 0.000000	Matrix Price per TOZ: 20.000000
Labor Packaging: 0.000000	Matrix Price per Gram: 0.643015
In-house Labor Cost: 0.000000	Market Price per TOZ: 23.850000
Handling Cost: 0.000000	Market Price per Gram: 0.766795

Contract Behavior

1. Using the Style Inventory Stock Items input screen (IN202500). The input for silver starts the process as standard.
2. After adding the Silver, grams value, i.e. 8.888
3. The user then selects the (A.) 'Calc' button next to the Silver grams field and a pop-up box, where they will enter the total unit cost.
4. The system then calculates the Precious Metal cost and posts the remained amount to the Fabrication/Value Add field.

Estimated Hours	40 - 56	Rate	\$185	Total Estimate	\$7,400 -- \$10,360

Terms	1. Work requested by Client outside the scope of services of their ERP project plan requires a Change Order (CO). Each CO will define the estimated hours to complete, along with a cost estimate. The acceptance and/or execution of a CO shall not consume hours of the original ERP contract, and, unless otherwise indicated, may delay the overall ERP implementation schedule and other work defined in the original ERP contract. 2. The Hours/Fees above are an estimate based upon the customer's specification and our experience implementing

	similar solutions. We are confident the hours quoted are a true estimate for this project as we understand it. 3. This Work Order is performed on a time and material basis. Actual fees apply and may vary for the estimate above. Any changes to the estimate will be provided to the customer in writing as soon as reasonably possible. 4. Correspondingly, ASC is not responsible for software bugs, which, in the event of an occurrence may result in additional, billable hours. If a software bug affects the estimate, notice will be provided to the customer in writing as soon as reasonably possible. 5. Customer is responsible for providing required technology including but not limited to, computer hardware and operating system, database and other Microsoft and non-Microsoft platform software and programming technologies—at the correct versions and service pack levels—consistent with specifications provided by software publishers to perform the tasks herein. 6. Customer is responsible to provide Advanced Solutions ready access—with sufficient pass word authority—to perform the services required herein. 7. Customer is responsible to provide sufficient and timely test of the work provided herein. 8. Customer will provide written acceptance of completion of the Work Order. 9. Work performed outside the Services described above, i.e. outside of the customer's specification (or in response to work required that is associated with the customer's responsibilities) will be billed at the Rate(s) provided above, and identified as a Change Order—an addition to the original estimate.
